SUMMARY

- Frontend Developer Intern at Untitled Ventures, contributing to Zynk.Ai, a recruiting software, where I led the design and
 development of a scalable landing page and implemented the complete frontend architecture to deliver a seamless and highperformance user experience.
- Passionate and results-driven B.Tech student specializing in Artificial Intelligence & Data Science, with a strong focus on
 Frontend Web Development. Skilled in crafting clean, efficient, and scalable code while applying modern UI/UX principles.
- Actively advancing my expertise in the MERN stack to strengthen my capabilities as a full-stack developer. Through handson project development using MongoDB, Express, React, and Node.js, I am acquiring comprehensive experience in both frontend and backend technologies.
